

What is included in your kitten plan?

All necessary vaccines through 16 weeks.

- 6 weeks - 8weeks 6 days: DRCP Vaccine
- 9 weeks - 11weeks 6 days:: DRCP and FeLV#1*
- 12 weeks - 14weeks 6 days: DRCP and Rabies and FeLV #2*
- 15 weeks on: Final DRCP booster (*and final FeLV booster if we did the first at the previous visit.)

Internal Parasite Exam and deworming

- We will test and deworm until we have two negative fecal exams.

FeIV/FIV testing

- We test for these common viruses at the first or second visit. It requires a drop of blood.

Physical Exam

- We do a physical exam on your kitten at every visit *except* the final booster. If you do have an issue and want to talk with us about it on that final day, we are happy to see your kitten.

Nail Trims

- Two nail trims are included with your kitten plan. These are to get your kitten used to having their feet and nails touched (as well as get rid of those needle claws.) We are happy to show you how to trim nails at home.

Flea/Tick/Heartworm Prevention

- First dose of Flea/Tick/Heartworm prevention (revolution.) There is a charge for each subsequent dose.

What is NOT included in your kitten plan?

If your kitten is sick or comes in for a separate issue it is not covered under the kitten plan and full charges will apply.
