

What is included in your puppy plan?

All necessary vaccines through 16 weeks.

- 6 weeks - 8weeks 6 days: DHPP Vaccine
- 9 weeks - 11weeks 6 days:: DHPP and Bordetella
- 12 weeks - 14weeks 6 days: DHLPP and Rabies (The L stands for leptospirosis)
- 15 weeks on: Final DHLPP booster.

Internal Parasite Exam and deworming

- We will test and deworm until we have two negative fecal exams.

Physical Exam

- We do a physical exam on your puppy at every visit *except* the final booster. If you do have an issue and want to talk with us about it on that final day, we are happy to see your puppy.

Nail Trims

- Two nail trims are included with your puppy plan. These are to get your puppy used to having their feet and nails touched (as well as get rid of those needle claws.) We are happy to show you how to trim nails at home.

Heartworm Prevention

- Weight appropriate heartworm prevention (revolution or sentinel) for each visit.

Flea/Tick Prevention

- First dose of Flea/Tick prevention (revolution or sentinel). For all subsequent doses charges will apply.

What is NOT included in your puppy plan?

If your puppy is sick or comes in for a separate issue it is not covered under the puppy plan and full charges will apply.

This plan is specifically designed for the puppy vaccine series. If you miss your appointments, please call us. The plan does not apply past the appropriate time frame.
